About

I'm a game developer dedicated to crafting engaging and innovative gaming experiences. With a strong technical background I focus on blending creativity with cutting-edge technology to bring captivating worlds and stories to life. My goal is to push the boundaries of interactive entertainment and deliver memorable experiences that resonate with players.

Professional Experience

Freelance Game & Unity Developer

10/2025 - Current

- Global Client Production: Manage end-to-end development cycles for international clients, ensuring specific technical and design requirements are delivered on time.
- Medical Anatomy App: Engineered a complex 3D medical visualization application, utilizing precise volumetric slice texture rendering and anatomical grouping.
- Commercial Game Development: Executed full-scale commercial contracts, including Giramille Football 2025, developing core 3D gameplay, multi-language UI, and tournament mechanics.

Unity Developer

SDLC corp

02/09/24 - 09/08/25.

- Worked on various projects of international clients, delivering and fulfilling their specific needs on time.
- Created payment gateways, API integrations with private servers, InDepth Unity Development, app deployment for both IOS and Android.

Lead Developer

SmashGameStudios

01/07/23 - 12/07/24.

- Worked on game mechanics, vfx, particles, game physics, UI, animations, save and load systems and much more script handling.
- Worked on Steam API integration, unity analytics and delivered a working Demo on Steam for windows and mac platform.
